1. ORIGIN OF THE REPORT

This report provides an overview of progress for initiatives within the Hospital and Specialist Service workplan that are a component of the Canterbury DHB Core Directions "Better Ways of Working". This is a monthly update item.

2. DISCUSSION

This report provides a status update of strategic Hospital and Specialist Service workplan programmes for the 2009/10 financial year. This revised format only reports the core programmes progress. These programmes are a mix of savings programmes and Improving the Patient Journey key programmes. There are many other initiatives throughout the Hospital & Specialist Service which are not reported at this level, many of which are supported both from within the divisions and by corporate resources. Many of these are reported in the divisional HAC reports.
